Ref No. 1923293137

Dear Mr. Harry Potter

As the Principal of the Hogwarts School of Witchcraft and Wizardry it is my sad duty to inform you that forthwith all owls will have to be housed in a barn, be they used for correspondence or kept as pets.

I understand that students may have become emotionally attached to their owls, I have observed you often with Hedwig, but unfortunately the magic mice have been disappearing steadily.

If you have any concerns, please Department of Magical Creatures on 1 800 666 666.

Yours sincerely,

*Albus Dumbledore*
